OFFICE OF THE MUNICIPAL MANAGER

PROVINCE OF KWAZULU-NATAL
KZN 435

VIEWPOINT

Greeting to all

NEW LEADERSHIP, ACCELERATED PACE

It is now an undisputed factual reality that after the 2021 Local Government Elections, municipality had been given a revised community mandate by the voters. This therefore forced every Council and strategic administrative seating to further accelerate their approach in order to be relevant to the needs of communities. Umzimkhulu Municipality is not immune to such as well. It is on that note that this municipality, in its Strategic Planning had to dig deep in modifying its policies.

TOURISM

Our approach towards tourism has also been revisited, we have since embarked on a program to identify tourism attraction sites in all the municipal wards with the view to market them. We strongly believe that our vision of being an economical vibrant municipality by 2030 depends on how expand community participation in the economy of this part of the Harry Gwala District. Identification of these tourism attraction sites per ward will definately add value towards our cultural aspiration hence it will add value on our brand identity. Supporting community initiatives and events will not boost our economy in a particular scale, it will also make Umzimkhulu to be a reliable tourism destination.

WARD COMMITTEE ELECTIONS

We are at towards the end of electing Ward Committees throughout Umzimkhulu, as such we are thus far pleased with the level of maturity both our leaders and communities have displayed. Ward Committees are the strategic pillars of the service delivery in any municipality, their existence define commitment towards elevating community participation. We are looking forward to further capacitate and work with these community foot soldier of service delivery.

Till we meet again
