

Economic development

uMzimkhulu municipality has pledged to develop and empower the economy of uMzimkhulu by supporting local business that are growing and still emerging.

The new building (uMzimkhulu Taxi Rank), which includes more than 30 and buses is an indication of this commitment as there are stalls in the area. The relocation of businessmen from former

Transido site to the SMME facility next to the new

Taxi Rank also proves the vision for the economic development of our people as they will sell their goods to about 500 people every day as taxi Rank will soon operate after some repairs.

The Municipal Mayor Cllr Jabu Msiya led LED standing committee Cllr Mavuma Speaker, Ward councilor Cllr Mafuleka and many more Cllr and the municipal employees in the event to encourage local business and businessman. This took a standout to see many people engaging themselves and being part of this event and buying local brands. We encourage everyone not to go far but to just use the SMME building to get whatever they want as it is for everyone. This center is fully operational and open to every member of the society.
